

Linde Nitrogen Services.

Efficient, customized project execution of:

Purging
Inerting
Blanketing

Nitrogen pressure testing
Helium leak testing

Drying

Hot stripping reactors
Reactor cool down

Pipe freezing
Ground freezing

Project engineering

Contact numbers:

24 hours a day, 7 days a week at:

General: tel +31 (0)10 246 14 60

And direct for,

Administration: tel +31 (0)10 246 13 97

fax +31 (0)10 246 14 06

Planning: tel +31 (0)10 246 14 61

Operations: tel +31 (0)10 246 12 06

Sales: tel +31 (0)10 246 14 51

Getting ahead through innovation.

With its innovative concepts, Linde Gas is playing a pioneering role in the global market. As a technology leader, it is our task to constantly raise the bar. Traditionally driven by entrepreneurship, we are working steadily on new high-quality products and innovative processes. Linde Gas offers more. We create added value, clearly discernible competitive advantages and greater profitability.

Each concept is tailored specifically to meet our customer's requirements-offering standardized as well as customized solutions. This applies to all industries and all companies regardless of their size. If you want to keep pace with tomorrow's competition, you need a partner by your side for whom top quality, process optimization and enhanced productivity are part of daily business. However, we define partnership not merely as being there for you but being with you. After all, joint activities form the core of commercial success.

Linde Gas - ideas become solutions.

Steam vaporizer capacity 15,000 m³/h Nitrogen

Everything under one roof

Flying Purger

Linde Nitrogen Services is a unit within the Linde Gas Benelux Organization.

Linde Nitrogen Services provides a fully integrated service, combining expertise, equipment (Nitrogen storage and vaporization), liquid nitrogen supply, operators, engineering and logistics. This makes Linde the only Total Gas supplier in Europe.

Projects are carried out efficiently and safely in accordance with Linde Nitrogen Services procedures and industry standards.

Linde Nitrogen Services will work in conjunction with clients to develop Customer-specific procedures.

Linde Nitrogen Services can respond to both planned and unplanned maintenance outages, working together with you to ensure your plant is operational within the shortest possible time.

Our detailed calculation module enables reactors to be taken offline more rapidly to minimize down time.
Helium leak testing is used, on completion of maintenance, to detect any possible leaks, ensuring that your operation is safe and efficient.

Hot Nitrogen can be injected into your system to accelerate the time needed to get your process back on stream.

Linde Nitrogen Services is part of the legal entity of Linde Gas Benelux B.V.

Linde Gas Benelux is ISO 9001 and VQA** certified.
